

AMERIGO NOVARO

Curriculum Vitae

Italy, Padova — amerigo.novaro@phd.unipd.it — LinkedIn

CURRENT POSITION

PhD Student in Statistical Sciences

Department of Statistical Sciences, University of Padova (since November 2024)

Supervisors: Carlo Gaetan and Alberto Roverato (co-supervisor)

EDUCATION

Master's Degree in Statistical Sciences

Department of Statistical Sciences, University of Padova (2024)

Thesis title: *Analisi dell'efficacia di differenti campagne di raccolta fondi presso un ETS tramite un approccio funzionale*

Supervisors: Stefano Mazzuco

Bachelor's Degree in Mathematical Statistics and Computer Processing Data (SMID)

Department of Mathematics, University of Genova (2021)

Thesis title: *Analisi e previsione guasti basato su dati provenienti dai sistemi bordo treno*

Supervisors: Luca Oneto and Giorgio Clerico (co-supervisor)

AWARD

Best Quality of the report

7th Edition of Stats Under the Stars (2024)

Young SIS

PUBLICATIONS

Novaro, A., Mazzuco, S. (2025). Functional Approach to Understanding Characteristics and Intensities of Different Fundraising Campaigns. Statistics for Innovation IV: SIS 2025, Short Papers, Contributed Sessions 3 (E. di Bella, V. Gioia, C. Lagaziom S. Zaccarin Eds.), Springer Nature Switzerland, 114-119.

REASEARCH GRANT

Participation to research projects

Grant: *"Causes of deAth dependence stRuctures and the cOmpositioNal effecT on ovErall mortality"* (CARONTE)

PI: Daniele Durante, CO-PI Stefano Mazzuco (University of Padova)

CONFERENCES AND INVITED TALKS

Evolution of sub-national longevity and causes of death composition using data on Italian provinces

Joint work with Davide Benussi, Emanuele Aliverti and Stefano Mazzuco

European Population Conference 2026, Oral Presentation, Bologna (jun-2026)

Encoding Dependence in Multivariate Extremes through Graphical Structures

Mathematical STatistics for Complex Data Workshop, Genoa (feb-2026)

Evolution of sub-national longevity and causes of death composition using data on Italian provinces

Joint work with Davide Benussi

Climbing Mortality Models Workshop II, Misurina (aug-2025)

Evolution of sub-national longevity and causes of death composition using data on Italian provinces
Joint work with Stefano Mazzucco
SIS2025 - Statistics for Innovation, Poster Session, Genoa (jun-2025)

TEACHING

Teaching Assistant

Feb 2025–Jun 2025 Department of Statistical Sciences, University of Padova
Supervisor: Emanuele Aliverti
Course: *Metodi statistici per dati funzionali*, M.Sc. in Statistical Sciences

Teaching Assistant

Oct 2025–Jan 2026 Department of Statistical Sciences, University of Padova
Supervisor: Alessandra Salvan
Course: *Modelli statistici 2*, B.Sc. in Statistics for Economics and Business

Teaching Assistant

Feb 2026–Jun 2026 Department of Statistical Sciences, University of Padova
Supervisor: Emanuele Aliverti
Course: *Metodi statistici per dati funzionali*, M.Sc. in Statistical Sciences
